“Evolving the way you manage your pedestrian access.”

ABOUT EVOLVE

About Evolve

Evolve Security Products Limited is part of a group of companies created to complement one another in the design, supply, installation, and service of pedestrian entrance control solutions.

We have “Evolved” from many years within the pedestrian entrance control security market. Formed in 2012 to design and manufacture high quality, robust and reliable entrance control products for resell via distributors and system integrators.

Our products are manufactured throughout the world, to our strict quality control procedures. The Evolve brand provides products that are: -

- Designed to meet the elegant harmony of architectural requirements.
- Manufactured to the highest European standards.
- Designed for high performance, reliability, and durability.
- Easy to install, service and maintain.

- Aesthetically pleasing, stylish, and
- AFFORDABLE.

Evolve Autogate Products Limited (HK) formed in 2016 is the global operation headquarters for Evolve. In the same year Evolve HK invested in Evolve (ShenZhen) Autogates Products and Evolve (Shanghai) Autogates.

Experience

Evolve is a global provider of pedestrian security products with a client base that includes commercial, financial, educational, retail, warehouse, border control and governmental clients.

Our CEO and Co-Founders have over 70 years of experience between them in design, supply, installation, and service of pedestrian entrance control solutions.

Our highly qualified R&D, manufacturing and quality control teams’ expertise lies in the design and manufacturing of aesthetically pleasing, stylish, high performance, and reliable pedestrian entrance control products.

Product Development

Product development is key to our success, listening to our partners and their customers requirements helps us shape our future product innovations.

We are constantly looking for ways to improve our products and services.

We draw on feedback from our partners, their customers, and our own quality control audits to identify areas where we can make improvements.

Quality Control

We have a comprehensive approach to managing quality in the design, manufacture, sale, and support.

Manufacturing and assembly is undertaken in our own factories around the world, following strict quality control procedures.

All our products are subject to a rigorous test and inspection programme during their manufacture to ensure that every

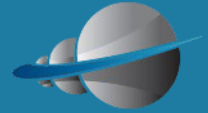

component, element, and final unit leaves the factory meeting our own high standards.

This ensures our products meet our high-quality control standards and enables our partners and their customers the opportunity to carry out their own Factory Acceptance Test (F.A.T) and receive product training.

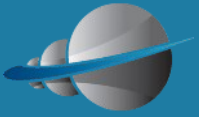

Support and training

We want to make sure our partners know as much about our products as our design and technical team which is why we offer :-

- FREE comprehensive training on all our products;
- Installation manual of good practice;
- Installation manuals and commission sheets;
- Planned and reactive manuals and commission sheets.
- Quotation templates.
- Layout and containment drawings.

ABOUT EVOLVE

ABOUT EVOLVE

Global Partner Network

Our global partner network plays an important role in delivering our industry leading pedestrian entrance control products to the marketplace.

Evolve's approved distributors and installers are selected for their knowledge of the industry and the high level of support they provide.

Many companies around the world have obtained significant results after choosing Evolve. Being an Evolve approved distributor and installer means being part of a dynamic, efficient organisation and benefiting from: -

- Represent a brand with strong awareness.
- High technical and commercial support.
- Reliable, aesthetically pleasing, and high-quality products.
- Part of a network of qualified specialists.
- Access to marketing tools and continuous training.

Unique Selling Points

- We offer a variety of pedestrian entrance control and access control products at competitive prices.
- We do not install, we only sell via distributors and their preferred integrators, creating a network of sales, after-sales, and training facilities.
- QR Product Registration Systems to help protect our partners, control warranty registration, track service work and quality issues.

- We operate an open book policy with our partners and our open protocol means end users benefit from being able to select their own preferred integrator.
- Our partners share a strong commitment to ensuring end users can purchase genuine Evolve products and parts with absolute confidence in quality, performance, and support.

Mission Statement

No company can grow or move forward without having a clear vision of where it wishes to be in the future.

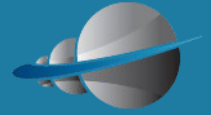

Much of our success can be attributed to staying at the forefront of new technology, providing innovative solutions to complex security needs, and

paying exceptional attention to detail, thus ensuring the company's growth year after year.

We are aware of tomorrow's demands; we have the expertise to be in the forefront of product development and to deliver total customer satisfaction.

Our aim to provide the best product, for the right price to satisfy the demands of our partners and their customers.
